SPECIAL Superintendent's Report -- Dr. Nicholas P. Sham, Sr.

**BOARD
REPORTS**
(Con't.)

Dr. Sham announced that Mr. Robert Cox has accumulated a total of 93 total points for a lifetime award for School Board Academy Boardmanship and Advanced Boardmanship and was presented with some lapel pins acknowledging this accomplishment.

Dr. Sham introduced Mr. Bernard Rockovich, business manager, who gave a presentation on where the district stands from a financial standpoint since it does have some impact on the possible reconfiguration of the two elementary schools.

Dr. Sham provided answers to some of the questions that he received with regard to the possible reconfiguration of the two elementary schools changing from a K-6 structure in both buildings to a K-3 and 4-6 structure. He also provided some 2002-2003 projected enrollments and staff distribution figures using current staff and 2002-2003 recommendations to reduce staff size associated with reconfiguring the elementary buildings. He noted that reconfiguring of our elementary schools has been a goal of the district's Strategic Plan that was developed in 1996.

**PUBLIC
COMMENT**

Lynn Wall – Washington Township – What mechanism will be used to assess the education levels of the students when the two buildings are combined to make sure they are all on the same level? She is concerned her son will get lost in the shuffle. Is the district aware of any other school districts that have done this? Will Y-CARE be offered at both schools? What happens to the money from the Kmart, ATT fund raising programs that the elementary schools participate in? Will this information be available on the district's web site?

Veena Barnett – Washington Township – “Could you please define 1 mill?” How much of an increase will be seen on the individual tax bill? Expressed appreciation for work the school board does. Asked that the board and administration keep the best interest of the children in mind when making their decisions and not increase class sizes. Families with more than one child will be required to do more running and have less time with their family. Parent involvement in school functions may also be affected by the reconfiguration.

Patricia Nonnemaker – Washington Township – Where is the money coming from to save a mill? Did the administration think of taking a pay cut to help the budget? She asked the district to stop their frivolous spending in special education.

Pamela Umlauf – Washington Township – Is anyone looking into grants and/or private or corporate fundraising? When decision is made, please take the best interest of the community as a whole into consideration.

Scott Lusk – Washington Township – Keep everything status quo – staff reduction will put class sizes at risk of pushing the upper limits. What is the fundraising money used for? He feels that thirty minutes maximum on the school bus is a long time for a young child on the bus.

Donna Figura – Washington Township -- She addressed the following issues: disparity in the two elementary schools, the increase in the pension for school employees, and time children spend on the bus.

Steven Uebele – Washington Township – The board and administration state that the reason for reconfiguration is for educational reasons, however, financial reasons seem to be the basis of discussions/decisions. Was hoping to see, in order, what the priorities are that lead to this proposal? What did you base your decision on to reconfigure the elementary schools? Besides this meeting, what other considerations will the board be doing in an attempt to get the parent's opinions and point of view.

Patrice Arnold – Washington Township – As a taxpayer, educator, parent volunteer and parent, she read a letter that shared her experiences as an educator and thoughts as a parent and asked the board to

think long and hard before agreeing to approve the reconfiguration of the elementary schools. Please consider the impact on everyone involved before making your decision.

Gail Freudenberger – Washington Township – Will students be academically grouped according to ability? Will we be losing some of the “good” teachers with the reduction of staff members?

Brandi Owens – Washington Township – As an elementary student she shared her concerns with the board, listing several areas that will be affected by the reconfiguration. She would like to be in the same school and same YCare as her brother. Only lives five minutes from Peters Elementary and does not want to take a bus to Slatington.

Lori Vernon – Washington Township – When students leave sixth grade and enter seventh grade in the middle school, with the reconfiguration, they would all be on the same level, receiving the same instruction. Parents and community members should have volunteered to participate in the Strategic Plan that would have allowed for their input. This concept has been in the works for six years. With regard to Title I – if we reconfigure we will be able to have Title I services for all of the children who need it.

George Cabala – Washington Township – Are there any financial or educational alternatives on the table? How many board members are affected by this reconfiguration?

David Oertner – Washington Township – This district has done some very good things over the past several years; however, he is concerned about this reconfiguration move. How much would it cost the average taxpayer if the reconfiguration were not done? Urged the board to keep the elementary configuration the way it is.

Tina George – Walnutport -- Addressed length of time students will be on the busses. Had a problem with the district planning on bussing students who, because of the location of the residence, would not need a bus if the reconfiguration didn't take place. This doesn't seem logical. Is a copy of the cost analysis on file – both with the reconfiguration and without the reconfiguration so she can see where the district will be saving money? Will the district need two new teachers if the reconfiguration does not happen? She expressed concern with cutting teachers. Her son is presently in a class with thirty-three students. If this move didn't save money, would it still have occurred for educational reasons? How will you deal with 6th grade students reading on a third grade level for library books.

Recess President Fedorcha called for a short recess at 10:10 p.m. The board reconvened at 10:15 p.m.

Executive Session An Executive Session was held at 6:30 p.m. in the Superintendent's Office for personnel issues. Another Executive Session was held following the meeting for personnel issues.

PERSONNEL A motion was made by Mrs. Geronikos, with a second made by Mrs. Giles, that the Board of Education approve the following administrative transfers:

Administrative Approve to administratively transfer Donna Marushak from her position as grade 5 Transfers teacher in the Peters Elementary School to the middle school, filling a new elementary position that has been created as a result of the transition to a middle school concept.
